

## About us

Since the beginning the Company specialized in the design and manufacture of unicycles and unicycle-parts for RACING, where every detail is studied and designed for the best efficiency and performance, and the materials and solutions chosen have the main goal to create TOP RANCE products.

Over the years we developed **6 different types of hubs, 34 types of cranks** (5-Pin, 6-Pin Short, 6Pin Long, 10-Pin ISIS compatible, ISIS), most of them designed and produced by CNC mechanical Centers in Italy.

In 2010 Vitalber launched the brand **Mad4One** which is the concrete result of this continuous technical research and improvement. High quality and innovation in unicycles and parts, together with flexibility in offering as much as possible customized products: this is the strength of our Company.

Based on this experience in 2015 we started the Project **URC**, a new family of unicycles, totally designed by us.

**URC is the CrMo productline of Mad4One.** The best balance between quality and price has been carefully studied, however our approach has not changed: the materials and solutions chosen have to put our Product always among the best of its category; flexibility in offering high level of customization must be always granted to the Client.

## How to reach us:

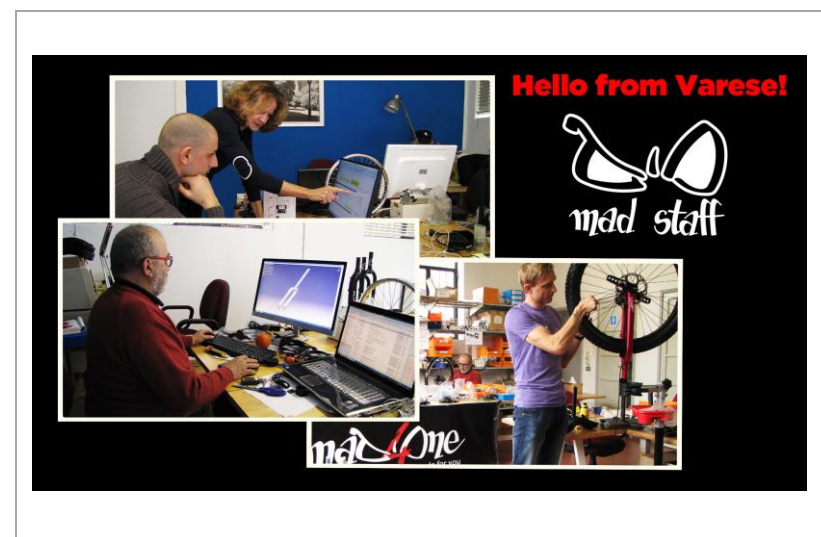

Our factory: Via del Riveccio 33,  
21100 Varese, Italy

Tel.: +39 335 6042430

E-Mail: marco@unaruota.com

# Our Skills at Your Service

**Vitalber S.a.S. di Marco Nicola Vitale & Co.**

**mad4one**  
unaruota.com

## Check-up, restoring, maintenance 1

**Do you think your unicycle is getting old? Do you feel you might renew some parts? Or do you want to change their color? Or how about you want to get your unicycle ready for the next competition?**

**Tell us about your desires and goals, You will pay only for the components and shipping.**

**No additional cost for support and labour!**

## The Customization 2

**Our goal is to provide fully customizable options for our customers.**

From the standard version upwards you may mount the tire of your choice, the cranks in the length you need, the Shimano Disc Brake you prefer. You can simply choose whichever you see fit for your style. **You will pay only for what you get, no surcharge for the change of the set-up!**

Would you like to give more character to your unicycle? You have 13 different colors for your frame, your rim and seat-post clamp.

We mount all components you have chosen, we check that your unicycle works properly, dismount it, pack everything and deliver your parcel to your address. You have simply to unbox ... and start riding :)

## Wheels handcrafted by us in our laboratory in Italy **3**

### Do you think your wheel should be rebuilt or replaced?

All our wheels are handcrafted by us in our factory in Italy.

Each wheel is carefully checked before delivery. On the inner side of the rim you will find a label **stating the date on which your wheel has been handcrafted and the signature of the person of our Team, who has built and controlled your wheel.**

Depending on the size and the expected use of the wheel (muni, trial or freestyle, race), we lace it 3 or 4 cross. **The components are always of high quality.**
